

CAREER OBJECTIVE

Motivated Computer Engineering student skilled in software development, manual/automation testing, and ML. Built projects using Python, Java, Selenium, and Streamlit. Experienced in test case writing, bug reporting, and ensuring web app quality. Eager to grow in dev and QA roles.

WORK EXPERIENCE

**QA Tester • Internship** May 2025 - Jul 2025  
PRAM Educate IT Solutions LLP, Virtual

- Performed manual testing of mobile applications to ensure optimal functionality, usability, and performance across devices.
- Created, executed, and documented detailed test cases; identified, reported, and tracked defects using Jira for effective bug management.
- Gained hands-on experience with Selenium automation basics, Jira and fundamentals of performance testing tailored for mobile environments.
- Collaborated closely with developers and developer teams to improve app quality and enhance user experience.
- Actively participated in Agile and Scrum processes, contributing to sprint planning, daily stand-ups, and review sessions to support efficient, ongoing development.

EDUCATION

**Bachelor of Engineering (B.E), Computer Science & Engineering** 2023 - 2027  
Pimpri Chinchwad College Of Engineering And Research

**Senior Secondary (XII), Maharashtra State Board Of Secondary And Higher Secondary Education** 2023  
Science  
S.B Patil College Of Science And Commerce  
Percentage: 65.00%

**Secondary (X), Maharashtra State Board Of Secondary And Higher Secondary Education** 2021  
St Jude High School  
Percentage: 76.20%

PROJECTS

**REAL-TIME CHATROOM WITH HATE SPEECH FILTERING**  
Jun 2025  
A PHP-based chatroom application integrated with a machine learning model to detect and block hate speech in real time. Offensive messages are flagged with warnings, while normal messages are allowed and stored in the MySQL database. Hate speech is blocked and not saved.  
Technologies Used: PHP, MySQL, JavaScript, FastAPI, cURL, HTML, CSS.

**Payroll Management System**  
Apr 2024 - Jun 2024  
Developed a web-based payroll management system to automate salary calculation, attendance tracking and employee data management

**Online Railway Management System**  
Aug 2024 - Present  
Created a online railway management system using HTML, CSS, JAVASCRIPT & PHP and My SQL as a database and some latest AI technology

SKILLS

- HTML
  - Effective Communication
- CSS
  - C++ Programming
- JavaScript
  - PHP

- C
- Selenium
- MySQL
- English Proficiency (Written)
- Python
- Manual Testing
- Software Testing
- Digital Marketing
- Postman
- English Proficiency (Spoken)

#### EXTRA CURRICULAR ACTIVITIES

- Volunteer at the Global Concave Event 2024 as a event co-ordination and technical support.
- Represented District in Inter District Hockey Tournament as a Captain.
- Awarded Gold medal at the State level karate Championship

#### ADDITIONAL DETAILS

- Selected as a Co-Lead of the PIC (Project and Innovation Club) and ACM (Association for Computing Machinery).
- Served as a Technical Member in Navdhara – State Level Project Competition, where I managed the official event website, ensured smooth online operations.
- Won Best Project Award at PCCOER College for outstanding project development and innovation.
